Shader: DoubleSidedLit

Shader Path:

Shader → Custom → DoubleSidedLit

Description:

This custom shader is based on Unity's Standard Shader but modified to render **both front and back faces**. Ideal for glass, cloth, and other thin materials.

Supported Features:

- Albedo, Metallic, Smoothness
- Normal Map
- Ambient Occlusion
- Emission
- Detail Albedo & Detail Normal Maps
- Transparency / Alpha blend

How to Use:

1. Create a new **Material**.
2. Set the Shader to **Custom** → **DoubleSidedLit**.
3. Adjust your maps (Albedo, Normal, AO, etc.).
4. Optional: Set material Rendering Mode to Transparent or Fade for glass-like surfaces.
